The next item on the Agenda was a new information item concerning the report on Governance Committee Activities. Mr. Valella stated that at the last Committee meeting, HFA/AHC Audit Committee Member Commissioner Thomas Mattox and HFA/AHC Committee Chairman Weiss had asked about the fact that contracts were coming up before the Committee. He stated that when Chairman Mulrow joined the Agency to be chair, his desire was that contract items be removed from board meetings and taken up at the Committee level because he wanted to focus board meetings on transactions and mortgage issues relating to the core mission of the Agency, and at that time, the Governance Committee Charter was amended to add that function to the functions of the Committee and the bylaws of the Committee were amended to permit that to occur. Mr. Valella stated further that a new committee could have been created for that purpose, but the feeling at the staff level was, due to scheduling issues, and because the Committee already had procurement review as one of its core functions, procurement functions could fall into this Committee, and the Committee approved that. Mr. Valella noted that the Committee members and the board can revisit this issue and a new committee could be created.

Mr. Valella then reviewed what the Charter called for the Governance Committee to do. He stated that the main items were to review and recommend board approval of governance guidelines and that the Committee did this in 2006; to review on a regular basis

and update the Agencies' code of conduct and that the Committee last did this in 2011; to review and approve whistleblower policies, and that the Committee last did this in 2012; to review compensation for senior officers, which the Committee does every year in December and had done last December; to review procurement guidelines, which the Committee had done; and to review MWBE functions, which the Committees had done recently. Mr. Valella noted that in 2012, the Committee reviewed the mission statement, evaluations, amendment to bylaws, and whistleblower policy, and that in 2011, the Committee reviewed an amendment to the code of ethics and the definition of municipal advisers. Mr. Valella then stated that lately, procurement activity has taken up an increasing amount of time. Mr. Valella stated that he leaves it to the Committee to recommend what should be done about that issue. He made two recommendations to be done this year: first, the Governance Committee Charter allows it to make recommendations on the structure of the Board meetings; and, second, the Governance Committee could review the committee structure.

Ms. McCann stated that more discussion might be needed regarding what would be the reason to have a separate procurement committee. She stated that short of a separate committee, the Committee might consider what information they might want to provide for continued handling by the Governance Committee. She stated that perhaps they could continue doing this in the Governance Committee with more attention to what information the Members and Directors would like to see.

SONYMA Acting Chair Rogatz stated that she would prefer not adding another committee. As the Governance Committee is doing procurement already, and this would add a small task to that, her preference would be to do it that way. She stated that they would have to see what the other members want.

Acting Chairman Towns stated that they would have further discussions in September, when the permanent leadership of the Committees will be involved.

There being no unfinished business, Acting Chair Rogatz moved to adjourn, Ms. McCann seconded the motion, and the meeting was adjourned at 9:14 A.M.
