NYS Office of Parks, Recreation & Historic Preservation

Main Street, NY

Have you audited a building and knew it was old, but wondered why it looked the way it did?

SHPO Review Process

Have you questioned how to best define your project when submitting it for review to the SHPO?

Windows

Why do some homes have window sash divided into 12 or 8 or 6 or 2 separate panes of glass?

Codes

How do NYS Building Codes deal with historic preservation?

Energy Efficiency Upgrades

What original architectural features can be considered when planning energy efficiency upgrades?

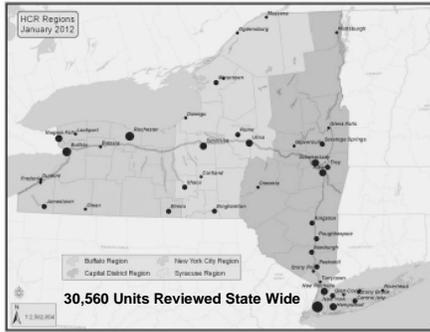

Purpose of Seminar

- Learn about the role of the New York State Historic Preservation Office with regards to weatherization
- Learn what is a "Historical" building
- Learn to identify historic architecture found throughout NYS
- Learn to identify what parts of your historic house may be historically significant and how original features should be considered when planning energy upgrades
- Learn how the Energy Code, the Existing Building Code, and the National Register can work mutually for weatherization.

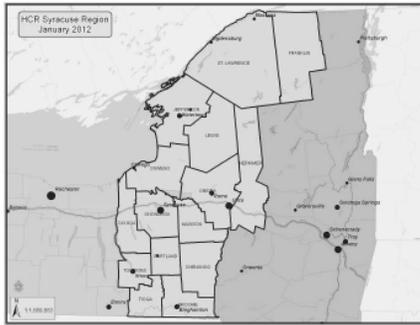

New York State: A Celebration of History

WEATHERIZATION ASSISTANCE PROGRAM 2010-2012

~3% have required additional review and were issued a No Adverse Effect determination
