

STONELEIGH HOUSING, INC.

Madison County

Program Name:	RESTORE
Location:	County-wide
Number of Units:	18
RESTORE Award:	\$75,000

Stoneleigh Housing, Inc. will administer a program to provide emergency home repairs for elderly homeowners.

RESTORE funds will provide assistance to very low income elderly homeowners who do not have sufficient means for emergency home repairs. The program will target life, health, and safety threatening conditions which exist in elderly homes. As a county-wide, not-for-profit housing agency, with our networking capability, we have continuous referrals for emergency repairs. We already have an established housing rehabilitation program; therefore, we have demonstrated the ability to implement, administrate, and monitor the immediate nature of this emergency program. Priority will be given to those elderly residents identified by Madison County Office for the Aging (MCOFA), who have an immediate emergency situation. In addition, the MCOFA will identify elderly homeowners with disabilities for emergency assistance.

Additional funding will be provided by HEAP, the Weatherization Assistance Program, and Last Resort.
